

Calculate Overall Savings when switching from an incandescent to Universal CrystaLogic White LED Lighting (Calculate via our website and/or mobile calculator)

Website Calculator – Go to <http://bit.ly/CrystaLogicFinancialSavingsCalculator>

Mobile Calculator – Scan the QR Code from a QR Code Reader on your mobile device. A QR Code reader can be downloaded from the App Store on either an iPhone and/or Android device.

**Universal CrystaLogic™
Energy Savings Calculator**

Universal CrystaLogic presents a compelling opportunity for any owner/operator to drastically cut operational cost while delivering game changing performance. The patent pending LED and optic design delivers both extraordinary lumen per watt energy efficiency and associated long lifetime cost. Our 300W pool equivalent delivers the same lumens as the leading competitor's claimed 500W equivalent, offers savings of up to 79% vs. incandescent equivalents, up to 10 times longer life, and can deliver a rapid payback in less than 2 years.

Fill out the information below to calculate your savings and discover how Universal CrystaLogic White LED pool and spa lights can transform your facilities!

Electrical Usage	
What is your electricity rate per kW hour (incl taxes)?	Energy Cost: \$ 0.20
Days per year lights are used?	Days: 365
Hours per day lights are used?	Hours: 12
